

Blue Heron Farm's Certified Organic Pastured Chickens & Egg SHARES.

These chickens are a heritage breed from France (not the Cornish crosses that many producers use) hatched at a small family farm in Pennsylvania. There is more

meat all around the bird and the birds are great foragers on pasture and feed only certified organic feed, pasture,

and bugs. They taste like what real chickens should taste like. There is a deposit of \$50 and then the chickens will be \$5.75 lb when they are finished. Shares are 5 or 10 birds or as many as you like - fresh or frozen. The chickens range from 3.5 to 5lbs. Available July-September. Order as many shares as you like. Egg shares are: \$108 for 18 weeks for 1 dozen a week or 1/2 dozen for \$54 for 18 weeks.

Add some bread to your share:

This year we have partnered again with **Wally's Place** to offer weekly deliveries of fresh artisan bread with your THURSDAY share. There will be no bread pickup on Mondays on farm. **Wally's Place** is a small bakery in South Hero that specializes in New York Style Bagels, fresh yeast and sourdough breads, desserts and flatbread pizza. They currently make many different varieties of bagels & sourdough breads. A share would consist of one of their sliced bread loaves, a 1/2 dozen baguettes, 8 bagels, or 2 pizza dough. 18 weeks=\$100

NEW this year! Add some Perky Planet Coffee to your share:

We are partnering with Perky Planet in BTV to offer fair trade coffee shares to your Monday or Thursday. Perky Planet is a Vermont owned Coffee roaster with a mission of employing individuals with disabilities. We proudly deliver mountain grown, 100% arabica bean coffee, sustainably sourced and fresh small-batch roasted to extract delicious coffee in every cup. You would receive 1# lb of fresh medium roasted coffee ground or whole bean per week. \$12 per week x 18 weeks = \$216

Delivery to Milton, St Albans & BTV

Other Dropoff/pickup sites can be arranged in Colchester at Fort Ethan Allen, Burlington, or the UVM Med Ctr on Thursdays starting mid June, You would need to find 10 or more members that were full/indiv shares to make it work. Please call us for more information on possibly delivering to your home/workplace.

What is Vermont Certified Organic?

Blue Heron Farm is certified organic by Vermont Organic Farmers, LLC. This means that your food - our produce, eggs, meat, hay & fiber does NOT contain: harmful pesticides, synthetic fertilizers, and genetic modification (GMOs); supports biodiversity; clean and nutritious and grown in organic soil. If you would like a tour of the farm and meet the veggies and animals - give us a call.

About Us...

We established our farm in April 2004 here on Quaker Rd in the beautiful Champlain Islands. This is our 17th season with a CSA. It was the dream of landowners Roy Newton and Ev Grimes to bring the land back into active farming use. They gave us support, love, and freedom to grow Blue Heron Farm in this beautiful place. On October 31, 2012, thanks to Roy, Vermont Land Trust, South Hero Land Trust, family, countless friends and community members - we are now the stewards of 30 acres on Quaker Rd. Buying this land

and conserving it from development, has secured our future, our children's future and the future of agriculture in Grand Isle. A lot has, can and will happen on this small acreage - feeding many people, from all walks of life.

This year we are going continue to use the knowledge and skills we have been honing to grow our/your food more holistically and provide the best, most nutrient dense food we can grow. Over the last few years, our soils have taken quite a beating with the extreme weather conditions. By working toward balancing soil minerals and fostering a thriving soil biology, we can take our farm to the next level-not to get bigger, but to grow in a more symbiotic way with our farm's life and soil and protect against future weather extremes. This means we will grow even tastier and more nutritious vegetables, eggs, milk and meat! We have already seen marked improvement in our land and food.

With your continued support, we can keep feeding you and your family, our family and our community at large. We continue on working our dream of growing a diversified family farm with produce, grazing sheep for fiber and meat, sweet cows for raw milk and beef, poultry for eggs and meat, apprenticeships, and educational programs. We strive to have our farm have a symbiotic relationship with the people, land, grazing animals, and produce of the farm.

Supporting Our Community:

We offer supported shares through the VT Farm Share Program. Community members' contributions are matched by NOFA-VT to help households who have limited means secure a CSA share. If you are interested in a supported share or making a contribution, please contact us. We also offer Senior Shares to the residents at the Round Barn in Grand Isle and Pine Manor in Alburgh in partnership with the USDA & NOFA-VT. We are partnering with Healthy Roots out of NMC for Healthy Roots Shares in Franklin and Grand Isle County. We donate organic produce to the Food For Thought Program - a community based summer breakfast/ lunch program for children & their families in GI County & GI Foodshelf nearly year round, we believe in Food for all! We also look forward to helping conserve more farmland here in Grand Isle County with VT Land Trust and South Hero Land Trust.

Established 2004

Celebrating 16 Years of our CSA

2005- 2021

How does a CSA work?

In a CSA, community members pay for their season's produce (a share) upfront in the spring, and receive fresh, seasonal, certified organic produce throughout the harvest. In farming, most of our costs of production are incurred in the spring, with seed purchases, seedling production, and soil preparation. In a CSA, members of the farm help out by helping the farm pay for some of these upfront costs.

This is a **mutually beneficial relationship** between you, the member, and us, the farmers. In return for your help, we provide you with great organic produce at

a lower than market price, as well as the opportunity to know where your food comes from, to know the people who are raising your food, and the opportunity to be able to ask questions about your food and see where it is grown. While a share entitles you to the bounty of the harvest, it also means a share of the risk. On occasion a crop may fail due to weather, pests, disease, or other conditions beyond our control. As a CSA member, you share the risks of farming with us, your farmers, the way it should be in a **local** food economy. You get to eat like a farmer, with the season.

When does it happen?

The CSA will run for 18 weeks, from early June until October. Members pick up their weekly share on Monday or Thursday nights from 4-6:30 PM at BHF in Grand Isle. Also, we will be Delivering to Milton, St Albans and Burlington on Thursdays. Other locations available with 10 or more shares to be delivered.

What can you expect?

This is just a sampling of the veggies we grow - many of the veggies are heirloom and open pollinated varieties.

Here is *a sample list*:

June: The first fruits of the season, such as carrots, beets, beet greens, spinach, sugar snap peas, arugulas, lettuce, chard, kale, salad greens, pac choi, bunching onions, & garlic scapes.

July: As the **summer heat** comes on favorites will arrive, such as squash, zucchini, tomatoes, sungold cherry tomatoes, eggplant, onions, potatoes, carrots, cucumbers, kale, chard, green beans, herbs, red cabbage, broccoli, and limited pick your own flowers & veggies.

August: All tomato varieties, sweet and hot peppers, more potatoes, beans, pears, salad goodies, sweet corn, cucumbers, zucchini, summer squash, ground cherries and onions, cantaloupe and watermelon; garlic, PYO veggies & more!

second harvest of peas and spinach. And plenty of other veggies, PYO herbs, veggies, and flowers throughout the season.

Sept. & Oct.: Onions, tomatoes, potatoes, lettuce, green beans, pumpkins, salad greens, cabbage, kale, brussel sprouts, winter squash, and hopefully a

How much is a share?

Our membership prices are based on a sliding scale **honor** system. We believe people of modest means should have access to wholesome organic food. We also have to make a living ourselves. So, we have three prices for the Full & Individual Share offerings. If you can pay the highest price, please do. If you cannot, then choose a lower option. You also receive a newsletter each week full of recipes and BHF happenings.

***Full Share.** This share provides an average of \$40 worth of produce per week at market prices (That's more than \$700 worth over 18 weeks.)

Full Share: \$575/\$625/\$650

***Individual Share.** This share provides an average of \$25 worth of produce per week at market prices. (That's more about \$450 worth over 18 weeks.)

Individual: \$375/\$425/\$450

***Salad Share.** This share provides an average of \$12 of produce per week at market prices. This share is perfect for those who want some salad greens, some quick snacking veggies or simple veggies/fruit that have little fuss. **Salad: \$200**

***Prorated Summer Resident Share.** Here for the summer and still want to be part of our farm this is the share for you. The number of weeks you are here are multiplied by full share cost (\$40) or individual share cost (\$25) equals the amount you owe.

*During the growing season there are times of adequate and then over the top production - that is just the way the season goes - so there maybe times you maybe going over the average - it is not unheard of to have the option of filling your basket with heirloom tomatoes, cucumbers, etc or go pick cherry tomatoes, ground cherries & green beans to your heart's content. That's the beauty of being part of our farm - you get to share in the bounty just as much as we do. There are working shares available for a reduction of \$50 per share (work 5 hours a month June, July, August, September). Limited payment plans are also available. There are supported shares available for folks who financially need help in obtaining a share. Supported share members pay half the cost and BHF fundraises the other half from the community and NOFA-VT. If you can, please think about contributing to the supported share program. **ASK about out PAY WHAT YOU CAN SHARE.**
